Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use my phone for emergencies such as on the road and when my children need to get a hold of me directly. I can not afford the other wireless phone plans, thus your proposed plan will eliminate my use of the tracfone. The tracfone plan has made using the wireless phone very easy, convenient and affordable. Please think of my children, either by them needing to get in touch with their mother or their mother being stranded on the road some where.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Linda Go
